

Public Meeting
**Route 205 (Ridge Road)
Bridge Rehabilitation Project
Westmoreland County**
Wednesday, October 17, 2012, 5-7 p.m.
Colonial Beach Town Center
22 Washington Avenue
Colonial Beach, VA 22443

Pardon Our Dust

Welcome!

Tonight's public meeting is being held to remind the community and motorists about the Route 205 (Ridge Road) Bridge Rehabilitation Project details and the upcoming detour.

Work will begin early next month to rehabilitate the two lane bridge over Tides Mill Stream in Westmoreland County. The project will include replacement of the bridge's superstructure and repairing the concrete on the bridge substructure.

Representatives from VDOT and the contractor are available to answer your questions about the project and detour.

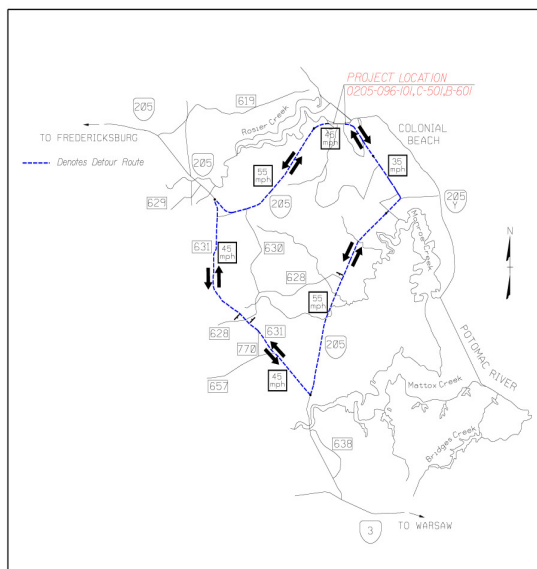

What to Expect

During construction traffic will be detoured around the project site.

Beginning November 1, 2012 motorists traveling on Route 205 will be detoured onto Route 631 (Longfield Road). The seven mile detour will remain in place until February 2013.

VDOT will install a temporary traffic signal at the intersection of Route 205 and Longfield Road to control traffic 24 hours a day while the detour is in place.

Route 631 is a state-maintained secondary route. However; while the detour is in place, VDOT will treat this route as a primary route; making it a priority route during winter weather operations.
